Profile

I am currently a Frontend Developer at DXC Technology, working primarily in HTML, (S)CSS, JavaScript, and more specifically - in React JS. I am looking for a role in which I can continue to both learn and progress, whilst also contributing towards exciting and challenging projects.

Experience

DXC Technology / Frontend Developer

JANUARY 2019 - PRESENT / LEEDS, UK

Develop for two medical applications - OneED and OneResponse. Daily tasks involve coding in React, accessing and utilising APIs, connecting to databases in Microsoft Azure, and ensuring that the project code aligns and adheres to clinical legislation, policies and practices. Represent DXC Technology on a UK Defence industry board setup to present solutions to already established norms that are either outdated and/or ineffective.

TLP Chartered Accountants / Payroll Administrator

MARCH 2016 - AUGUST 2017 / HARROGATE, UK

Processed payroll for over two-hundred-and-fifty companies, totalling up to two-thousand employees. Handled confidential client information when communicating and dealing with Her Majesty's Revenue and Customs (HMRC). Ensured that clients adhered to governmental rules.

Education

University of Nottingham / MA International Relations

SEPTEMBER 2017 - AUGUST 2018

University of Huddersfield / BA (Hons) Popular Music

SEPTEMBER 2011 - JULY 2014

Skills

HTML, CSS, JavaScript, React JS, React Native, SCSS
